Celebrate diversity from sea to shining sea.

This companion book to the best-selling *Global Babies* features seventeen adorable photographs of babies from across the United States. The perfect size for little hands, this book offers a unique approach to introducing young children to the rich diversity in our country. Whether they're crawling on a beach or bundled up in the cold, all babies share a universal joy of play and discovery.

American Babies is published in partnership with The Global Fund for Children. A portion of the proceeds from the sale of this book helps support The Global Fund for Children's grant-making toward community-based projects benefiting children around the world.

The Global Fund for Children develops innovative titles that help young readers expand their appreciation of the multicultural world in which they live. Each book depicts positive images of children, promotes multiculturalism, and integrates the child's perspective into the text.
