Bears tumble in!

Learn to count with this rhyming tale of twelve teddy bears tumbling from page to page. Not just a counting book, it also teaches toddlers colors, shapes, and counting by sets as the bears dance, jump, and play. When it's time to leave, the bears scurry out in groups as readers count down to zero.

Back matter includes a review of the colors, shapes, numbers, and sets presented. Hands-on interaction makes this book perfect for use with bear counters and other classroom manipulatives.

Barbara Barbieri McGrath was a nursery school teacher before she dedicated herself to writing children's books. She is the author of The Little Red Elf, The Little Green Witch, and many best-selling math concept books. Barbara lives in Natick, Massachusetts.

Tim Nihoff is the illustrator of Otter Everywhere (Candlewick). He is also a graphic designer and sculptor who creates toys, furniture, and other "fun fine art" from found objects. Tim lives and works on a small island in Maine.
